FROM: 1ST AIR DIV
CITE: D1856
TO: CG FRAP

Representatives of the Foreign Broadcast Information Branch of the Central Intelligence Agency have completed a survey of sites on Okinawa for a contemplated radio monitoring station and desire permission to locate same adjacent to the [redacted]. Subject to final approval by the CIA, they desire to contract with the district engineer for construction of operational and administrative buildings at [redacted] and dependent housing adjacent to 1st Air Div dependent housing. For personnel support, they desire use of the 1st Air Div dispensary, commissary, clubs, post exchanges, bachelor messing facilities, and such other support activities as are available at usual cost to the individual. On maintenance and repair they would require Post Engineer Service commensurate with the installations and utilities they utilize. For fuel for motor vehicles, generators, etc., they would draw on 1st Air Div supplies and would have 1st Air Div perform their 2nd and 3rd echelon vehicle maintenance. All services and supplies obtained from the 1st Air Div by the FBIB would be on a reimbursable basis. The 1st Air Div interposes no objection to the plan as outlined above and recommends its approval through channels. End.
